

Auto Tracking Video camera

CAM300-AT

Easy to set up this CAM300-AT is designed to see, hear and speak to people and pets from your phone or tablet. With live view, you can connect with the device through your Amalock app. Get notifications whenever motion is detected and see who is in the room and talk 2 way. Best of all, it has auto-tracking, so it will follow the intruder all around the room recording at all times.
