

# EF1213

## Large Vertical Tripod Turnstile

The **EF1213** Automatic Tripod Turnstile provides a robust and efficient access control solution ideal for high-traffic environments.

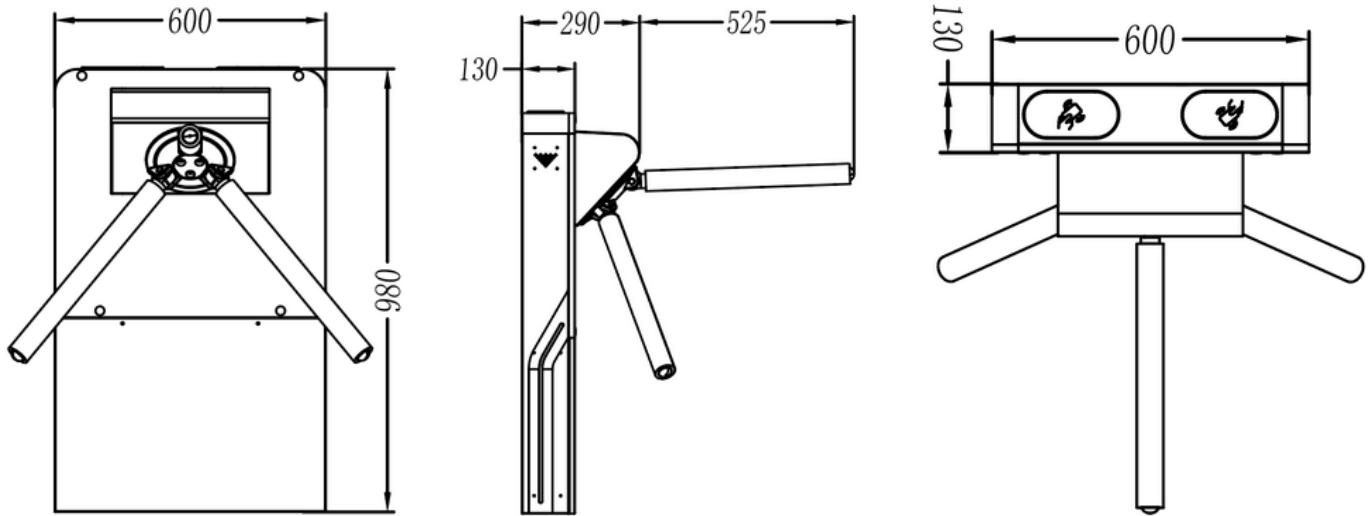

With a durable design, quiet operation and versatile integration options, it delivers dependable performance for controlled entry in offices, transport hubs, leisure facilities and more.

### KEY BENEFITS:

- Brushless motor and engineered core ensure stable, low-noise performance over a long service life.
- Clear LED indicators — Green shows valid access, red alerts invalid credentials for convenient, intuitive use.
- Flexible access support — Compatible with IC/ID cards, QR code scanning, face recognition and other control systems.
- Automatic reset function — If passage isn't completed in the preset time, the turnstile locks again automatically.
